

Check brake cables for ease of movement

All models

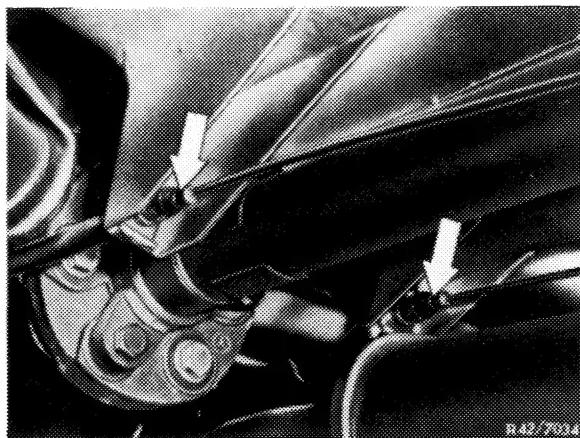

- Operate parking brake several times and have a second man observe the ease of movement of the rear brake cables, the relay lever and the equalizer, as well as the front brake cable.

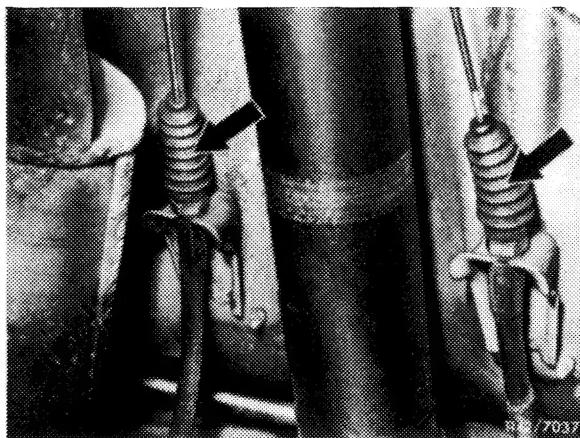

5 Equalizer
6 Relay lever

12 Brake cable

- Visual inspection of the brake cables. Pay particular attention to the **rubber boots** (see arrows) which form the seal between the cable and the cable guide.

Models 107, 114, 115, 116, 123

Models 108, 109, 111, 113
